I-Share Account

I-Share accounts enable current students, faculty and staff to check out books from a network of more than 80 academic libraries in Illinois. You can also use the account to see a list of your checked-out items and renew them online.

1. **Create a User Account.**

From the library’s website at [http://neiu.edu/library](http://neiu.edu/library), click on the Create Account link (near the middle of the page underneath “NEIU Library Catalog/I-Share Accounts”). In the future, you can click on the Login link next to it.

2. **Enter your personal information.**

   - We recommend using your NEIU email and the username/password that you use for NEIUport.
   - Your borrower ID is **EVERY** number at the bottom of your student ID. If you know your ID number but don’t have your card, enter 212240, your 6 digit code, and then 00.

3. **Click submit!**

Once you have your account set up, you can request books through I-Share. If you are looking for a textbook, keep in mind that many times these books are on reserve and are **not available to request**.

If you get an error message make sure that you entered the **correct ID number**. If you’re still having problems, call 773-442-4401, email **libcirc@neiu.edu**, or send us a chat on the library website at [http://neiu.edu/library](http://neiu.edu/library).
